Vet Visit Log

Record each vaccination appointment

DATE	AGE	VACCINES GIVEN	VET / CLINIC	NEXT APPT	NOTES

After-vaccine warning signs — call your vet:

- Facial swelling or hives
- Difficulty breathing or gasping
- Vomiting after the visit
- Extreme lethargy beyond 24 hrs
- Collapse or loss of consciousness

Tips for a stress-free vet visit:

- Bring treats — a hungry puppy cooperates!
- Carry them in to avoid floor contact
- Bring a familiar toy or blanket
- Ask about lifestyle vaccine recommendations
- Keep this sheet in your puppy's records
